

# ***Faster and Enhanced Results*** **by Direct DNA Extraction** **from Amniotic Fluid and** **Chorionic Villi**

**GENETICS CENTER** offers a method of directly obtaining fetal DNA from amniotic fluid and chorionic villi (sample permitting), eliminating the time consuming tissue culture process, thereby providing faster turnaround times and enhanced results for those time sensitive cases.

## **Tests with this new method include:**

- **GCPrenatal** (Prenatal Array CGH)
- Fragile X
- Cystic Fibrosis
- Skeletal Dysplasia Panel (Achondroplasia, Hypochondroplasia, Thanatophoric Dysplasia Types I & II)
- Paternity/Identity testing

**For further information regarding specimen requirements, pricing, and turnaround time, please visit [www.geneticscenter.com](http://www.geneticscenter.com) or contact us at:**
